

Ritter 230 Power Exam Table

More and more healthcare providers are investing in power tables when updating their existing facilities or building new ones. This new trend is making exam and procedure rooms more efficient and safe, allowing a better overall healthcare experience for the patient.

Make the smart choice for your practice by choosing the Ritter 230 Power Procedures Table and experience the many benefits of a power table. As the practice of medicine changes, more procedures are being performed in the office than ever before, making efficiency essential.

Sometimes positioning patients can be a difficult task when dealing with the less mobile, elderly, and special needs patients. The Ritter 230 Power Procedures Table, with its low height and multi-positioning capabilities, improves office efficiency by allowing you and your staff to easily position patients with the touch of a button; reducing the likelihood of fatigue, back and neck strain, and workplace injury.

Patients will feel more comfortable and secure when they can easily get onto a table and experience smooth and steady movement during positioning. Their anxiety will be reduced and they will feel satisfied with the level of healthcare you provide.

Ritter 204 Manual Exam Table

Featuring the latest in design, comfort and functionality in a manual exam table, it truly offers efficient patient care.

What makes Ritter the most purchased brand of exam tables in the industry? It's our willingness to research, study and listen, so that we can meet your needs... and the needs of your patients.

We found that you need an exam table that allows easy access for patients, making them feel secure; three side drawers for optimal supply management; modern styling to coordinate with your office; an updated, ergonomic top design to help patients feel comfortable; and additional weight capacity to handle heavy patients.

WELCH-ALLYN LS-200

- Superior maneuverability for accurate light placement without drifting or repositioning.
- 24" working distance with 2,500 foot-candles light output and 3,200° K color temperature provides enhanced visualization of the operative site and true tissue color rendition.
- Three-lamp design ensures continuous operation and shadow-free illumination.
- 7" spot size with feathered edge definition and 12" depth of field reduces eye strain and the need to maneuver the light during procedures.
- Dichroic reflectors allow infrared light through, for less heat.
- Halogen lamps provide white light with a 3,000-hour average lamp life.
- Friction adjustment for customized movement with consistent, long-term durability.

WELCH-ALLYN LS-150

A new addition to Welch Allyn's lighting family, the LS-150 provides premium quality, high performance light to meet the demanding specifications of medical professionals.

- Color-corrected 50-Watt lamp that delivers superior light quality across the variable spectrum for more accurate color rendition.
- Specially designed light head keeps luminaire cool to the touch - even during multiple exams. Lamp has been offset at a 12-degree angle relative to the luminaire housing, allowing an unobstructed view of the field of interest.
- Reduced base profile (14" dia) frees up valuable exam room floor space.
- Encased flexible 24" arm enables accurate one-hand positioning you don't get with conventional gooseneck units.
- Multiple installation options - including floor stand, caster base, wall mount or table mount.

Welch-Allyn 767 Integrated Diagnostic System

By combining a wall aneroid, ophthalmoscope, otoscope, specula dispenser, and thermometer, Welch Allyn gives you all the basic diagnostic tools in an attractive, modular, easy-to-order and install package. And no more hunting around for instruments since each room has them on the wall, within arms' reach!

In an era where efficiency is becoming increasingly vital, it is imperative that medical professionals have all the instruments they need right where they need them most. That's why Welch Allyn created the new 767 Integrated Diagnostic System. This innovative system offers many of Welch Allyn's state-of-the-art diagnostic instruments — all in one easy-to-order, easy-to-install, wall-mounted package.

- All the instruments you'll need to perform a complete diagnostic examination.
- Comes with a 3.5v Direct Ophthalmoscope with five apertures and a halogen lamp for long-lasting, reliable performance.
- MacroView™ Otoloscope with 30% more magnification and nearly a full view of the tympanic membrane as compared to traditional otoscopes.
- Handle-based rheostats for quick light-intensity adjustments.
- 767 Wall Aneroid with easy-to-read, jeweled-movement, mercury-free manometer, certified to be accurate within one percent of scale (± 3 mmHg).
- KleenSpec® Plus Disposable Specula Dispenser, filled, with built-in storage compartment.
- Sturdy, pre-drilled mounting board mounts easily to any wall, preventing loss or theft.
- 767 SureTemp® Electronic Thermometer provides highly accurate oral temperature readings in 4 seconds, rectal temperature readings in 15 seconds.
